

Maber
PACKAGING SOLUTIONS

COMPANY

OUR VISION

Our vision is to become a Leading Supplier of Packaging for Industry and Mass Market Retailers, providing our customers with high-standard Services, Quality and Innovation in a sustainable manner.

OUR HISTORY

Maber is a Trading Company that has been operating in packaging for 35 years, facilitating contacts between producers and customers and relieving manufacturers from any sales burdens.

Maber is the result of the experience gained by its founder in the world of corrugated board. **Maber** aims at satisfying any need of its customers, offering a high-level service, as well as quick responses and actions, by taking advantage of the cooperation of major international companies.

The Experts of **Maber's** team are always available to ensure qualified assistance and offer their constantly updated sectoral experience. **Maber** is sure that only by means of creating a direct contact and through mutual trust with the customer, is it possible to establish a long-term relationship, giving advantages to both the parties.

Maber offers its customers a wide range of high quality products and can provide its customers with a global service, as a strategic partner for tailored consultancy and solutions, relieving in this way the workload of the operators in the different branches of Packaging.

Products & Services

MABER'S PRODUCTS ARE YOUR PACKAGING SOLUTIONS

Maber offers a broad range of tailored and innovative packaging solutions of the best quality to meet the needs of all sectors. Best-in-class experience, consultancy and quality makes our service "unique" and tailored according to the needs of our customers. We are able to deliver value by delivering small or large lots and through our global logistic approach.

CORRUGATED BOARD PACKAGING

Conventional and die-cut boxes, any kind of packaging solution with high-definition printing. Packaging for Mass Market Retailers, ideal to enhance the brand of the manufacturers while optimizing the costs alongside the whole supply chain. Heavy-duty packaging, such as Octabins, for industrial purposes and for the transportation of bulk goods, granular and powder products. Pizza boxes, available in various sizes, with generic or customized printing.
